Word Processors and Graphic File Format Converters Development

Client

Interleaf, Inc., a developer of software products used for the electronic assembly, management, retrieval, publishing and distribution of business documents, targeting publishing and enterprise content management markets. Since 2000, Interleaf has been a division of BroadVision, a global provider of personal self-service web applications and a leading e-commerce solution vendor, is widely recognized as a pioneer and innovator in personalization and web-based interactions, transactions, and process enablement.

Solution

For Interleaf Auriga developed and implemented the file format converters (filters) for most popular word processors and desktop publishing systems, such as AutoCAD, MS Word, CorelDRAW, WordPerfect, Interleaf, and FrameMaker. More than a dozen graphic file formats (TIFF, GIF, WMF, Postscript etc.) are supported.

Implementation

OS's: Sun, HP, RS, DEC Alpha, PC, Sun OS 4, Solaris 2, HP/UX, AIX, DEC UNIX, MS Windows 95/98/NT

Languages: C, Lisp
