# Natural Fax™

---

## Client

NMS Communications (NASDAQ: NMSS) is a leading provider of technologies and solutions for mobile applications and infrastructure. NMS products enable new mobile voice, data, and video applications and improve the performance and quality of wireless networks, helping our customers grow their revenues and profits.

## Solution

Natural Fax™ provides multiple port, ITU Group 3 fax capability for Alliance Generation (AG) computer telephony platforms and for the NaturalFax/AG™ family of intelligent fax boards. Utilizing Natural Microsystems' Alliance Generation DSP architecture, Natural Fax™ provides a highly integrated, store-and-forward fax service on standard telephony interface boards, lowering overall system costs. NaturalFax is one of several services within the Natural Access™ unified program development environment that support a broad array of fax applications. The result is lower application development costs and reduced time to market. With Natural Fax™, developers can enhance existing applications by adding fax service or develop powerful fax server applications such as fax-on-demand, fax broadcast, LAN fax or IP fax.
